

Conceptual Designs by Jennifer Frudakis

The size can vary to meet the needs of the location. These sculptures can be made for indoor or outdoor use.

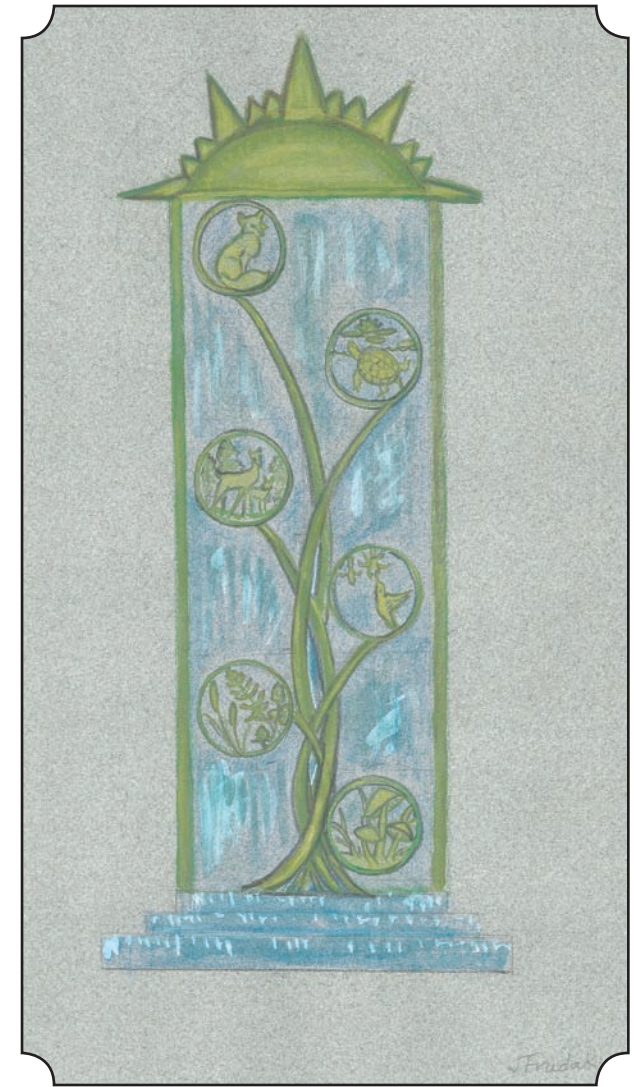

Kinetic 3D design proposed to be cast in bronze with steel reinforcement.

The sun is located at the center of the sculpture to represent the basic needs for all life to exist. Water is also featured at the base of the sculpture as part of the cycle of life.

Elements in nature are being balanced in the hands of a human figure cast in bronze. The arms move from side to side to represent the balance of nature in the hands of the human race.

Bronze elements are in relief sculpture with water cascading behind the sculpture.

The sun is featured at the top of the sculpture and is connected to the frame as a symbol of it supporting all living things.
